

NOLTING®

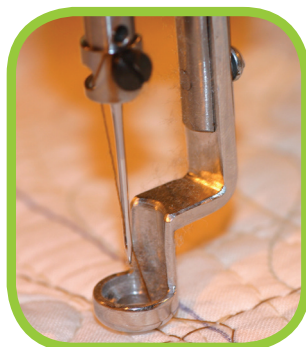

LONGARM QUILTING MACHINES

The NV is our fifth generation stitch regulator. The features and tools that make up the NV are designed to make your quilting easier, more accurate and more productive.

**New NV Touch Screen
Stitch Regulator**

**Round Foot For
Ruler Guides**

- 20" and 24" throat depth, with 10" of inside height.
- 30" throat depth, with 12" of inside height.
- Adjustable front and rear handles, move from wide angle to microstitch.
- Rear handles for laser guided pantograph quilting.
- NV stitch regulator. The most accurate in the industry.
- Round hopping foot for using rulers and templates.
- Convenient front and rear hand wheels.
- Adjustable intensity LED light above the needle.
- Light weight machine body with walls constructed of strong solid aluminum.
- Complete systems include frame and accessories.
- Custom built, individually, by skilled craftsmen at the Nolting manufacturing facility in Hiawatha, Iowa.

NV STITCH REGULATOR

Touch screen control offers four operating modes. Precision stitch regulation, idle stitch regulation, basting and manual mode. Also offers needle up/down, single stitch and tie off stitch buttons.

LOW MAINTENANCE

Only 1 drop of oil every 8 hours of continuous use. No oil reservoirs or complex places to access.

THREAD PATH

Obvious thread path and tension device help you achieve your desired stitch quality.

12" FLORESCENT LIGHT

Light the work area perfectly. Switch to black light with the touch of the screen.

ADJUSTABLE HANDLES

Fully adjustable front and rear handles can be custom positioned to your individual needs.

HOPPING FOOT ASSEMBLY

Just right for rulers and guides.
